

OFFSPRING BRAND CHARACTER GUIDELINES

COLOUR / TYPOGRAPHY / IMAGERY / PERSONALITY / TONE

A focused extension of The Craft Union identity system,
defining the distinct voice and visual character of Treesongs,
Riversprings and Whisperlake.

TIGONI, KENYA / 2026

ONE FAMILY. THREE DISTINCT VOICES.

02

The parent system remains constant. Only the offspring name treatment, colour palette, imagery, personality and tone shift between projects. Layout, grids, endorsement and Optima/Pelago supporting typography remain unchanged.

TREESONGS

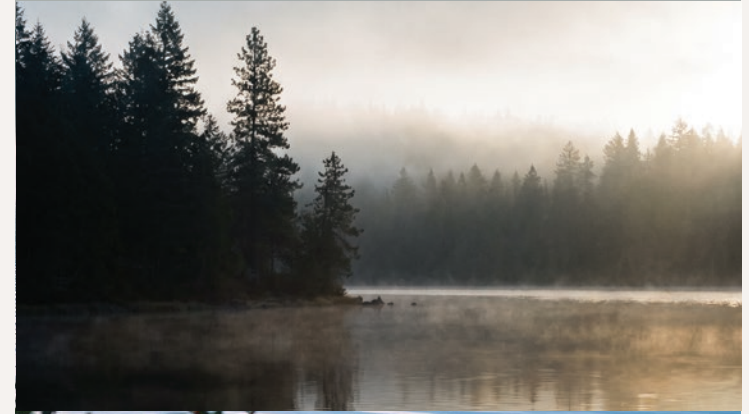

Transformative, cultivated and purposeful.

RIVERSPRINGS

Restorative calm balanced by living energy.

WHISPERLAKE

Serene, elegant and quietly mysterious.

TREESONGS

tone cue

TRANSFORMATIVE LIVING

03

TREESONGS

TYPOGRAPHY

Use the approved uppercase serif name artwork with generous spacing. It signals refinement, permanence and flagship stature. Reserve it for the project name; supporting text remains Optima/Pelago.

PERSONALITY

TRANSFORMATIVE

CULTIVATED

PURPOSEFUL

EXPANSIVE

GROUNDED

Quietly prestigious and comprehensive, never showy.

IMAGERY

Build an immersive world of forest, clearings, waterfalls, crafted homes, paths, wellness, food, learning and community. Use layered natural depth, filtered light and purposeful human moments.

● Avoid: generic luxury, status symbols and empty scenery.

tone

Write with calm confidence and considered optimism. Focus on time, space, connection, personal growth and a more purposeful life.

● Avoid: hype, exclusivity language and city-bashing.

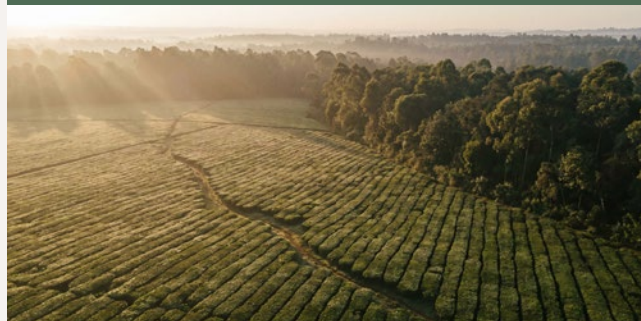

RIVERSPRINGS

04

tone cue

CATCH YOUR BREATH. TAKE YOUR BREATH AWAY.

RIVERSPRINGS

TYPOGRAPHY

Use the approved flowing script name artwork. Its movement expresses freedom, spontaneity and the balance between restoration and energy. Keep the script exclusive to the project name.

PERSONALITY

RESTORATIVE

ENERGISING

PEACEFUL

INVIGORATING

OPTIMISTIC

Expressive and sociable, while remaining polished and grounded.

IMAGERY

Show deliberate contrast: still landscapes and active movement, private restoration and shared connection. Combine calm wide views with walking, cycling, running, gathering and discovery.

- Avoid: only tranquillity or only high-energy activity.

tone

Use active, sensory language with a light rhythm. Pair moments of pause with moments of discovery and let calm and vitality coexist.

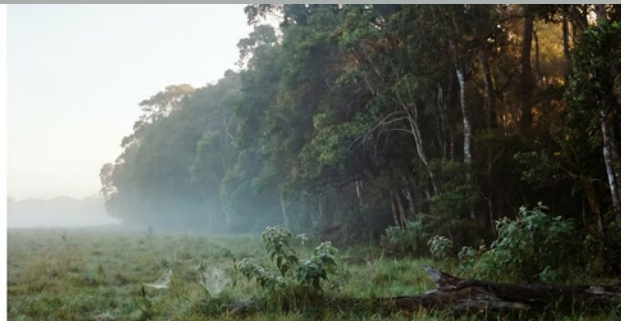

- Avoid: frantic, extreme or adrenaline-led language.

WHISPERLAKE

tone cue

A SANCTUARY FOR THE SOUL

05

WHISPERLAKE

TYPOGRAPHY

Use the approved lowercase, light-weight name artwork with generous tracking. Preserve its openness and delicate weight; never embolden, compress or convert it to uppercase.

PERSONALITY

CALMING

SERENE

ELEGANT

SOULFUL

MYSTERIOUS

Composed, intimate and quietly communal.

IMAGERY

Centre the world on still water, mist, reflections, willow trees, the rising forest and quiet shoreline moments. Use soft light, negative space and minimal, reflective human presence.

- Avoid: boating, swimming, water sports or one definitive house design.

TONE

Write sparingly and poetically. Use gentle pacing and focus on clarity, restoration, slow living and the freedom to shape a home within the landscape.

- Avoid: urgency, superlatives and energetic water language.

COLOUR — ACROSS THE FAMILY

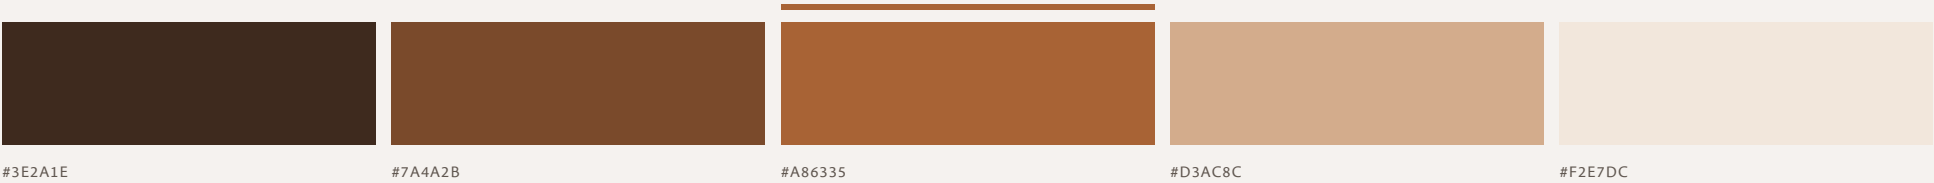

06

Each offspring now carries a five-step palette rather than a single colour, giving designers room to build depth, hierarchy and contrast without leaving the family. Every palette is anchored on the approved core colour, which does not change. The steps around it are derived from that core, so the three families stay distinct from one another and consistent with the parent.

TREESONGS

Transformative, cultivated and purposeful.

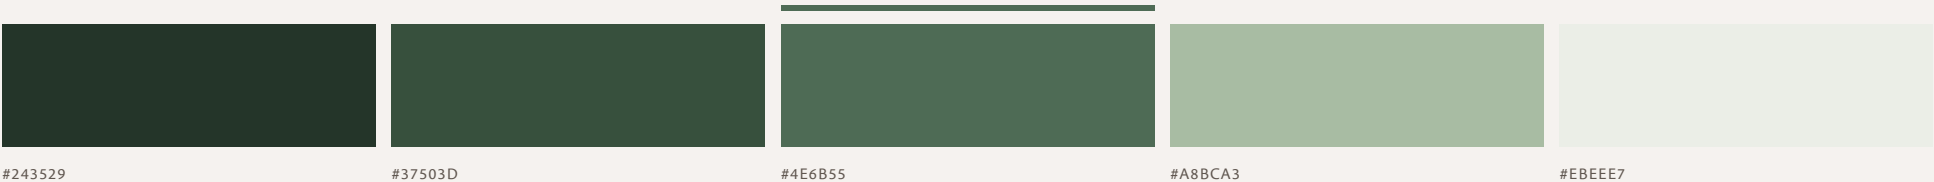

CORE #A86335

RIVERSPRINGS

Restorative calm balanced by living energy.

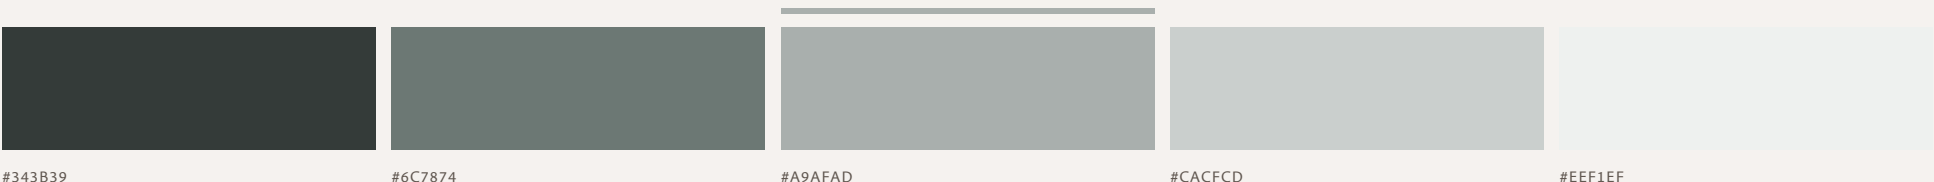

CORE #4E6B55

WHISPERLAKE

Serene, elegant and quietly mysterious.

CORE #A9AFAD

HOW THE PALETTES WORK

ONE CORE, FIVE STEPS

The approved core colour is unchanged and still owns the name bar and endorsement panel. The other four steps extend it.

LEAD WITH THE LIGHT END

Paper and tint grounds carry most of the page. The core is an accent, not a background.

FAMILIES DO NOT MIX

Treesongs clay never appears on Whisperlake material, and so on. One palette per project.

THE PARENT STAYS NEUTRAL

TCU paper, Dark Olive-Grey, Warm Brown and Beige/Tan are shared by all three and are specified in the master guidelines.

TREESONGS

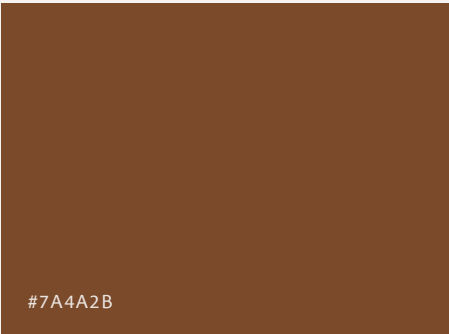

COLOUR PALETTE

DEEP WALNUT

Darkest ground. Headlines reversed out, footers, full-bleed covers.

HEX #3E2A1E
RGB R 62 G 42 B 30
CMYK C 47 M 61 Y 78 K 53
PANTONE 4625 C

BURNT UMBER

Secondary depth. Rules, section heads, sub-headings on light grounds.

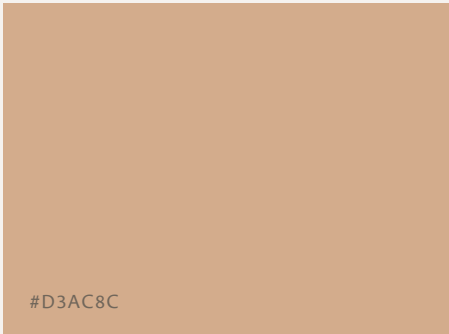

HEX #7A4A2B
RGB R 122 G 74 B 43
CMYK C 34 M 58 Y 82 K 22
PANTONE 4635 C

TERRACOTTA

CORE. Name bar, endorsement panel, primary accent. Never altered.

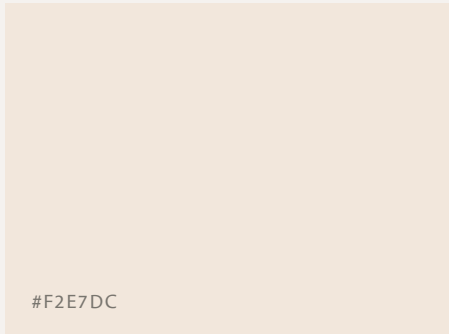

HEX #A86335
RGB R 168 G 99 B 53
CMYK C 30 M 57 Y 83 K 0
PANTONE 730 C

CLAY

Tint ground. Cards, panels, table fills, photographic scrims.

HEX #D3AC8C
RGB R 211 G 172 B 140
CMYK C 14 M 25 Y 35 K 0
PANTONE 4665 C

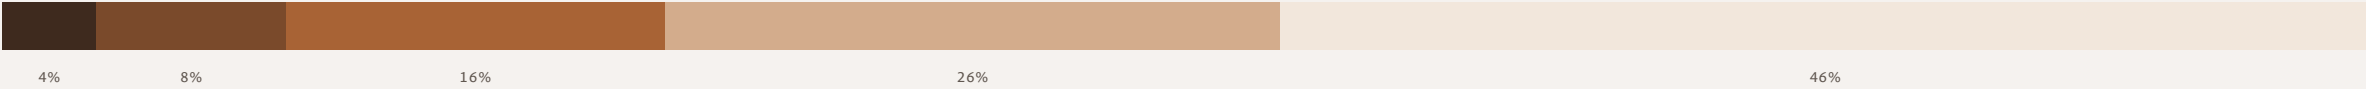

LIME WASH

Paper. The default page ground for Treesongs material.

HEX #F2E7DC
RGB R 242 G 231 B 220
CMYK C 4 M 6 Y 9 K 0
PANTONE 730 C · 6%

PROPORTION IN USE

Indicative ink coverage across a typical piece — the palette should read light, with the core used deliberately.

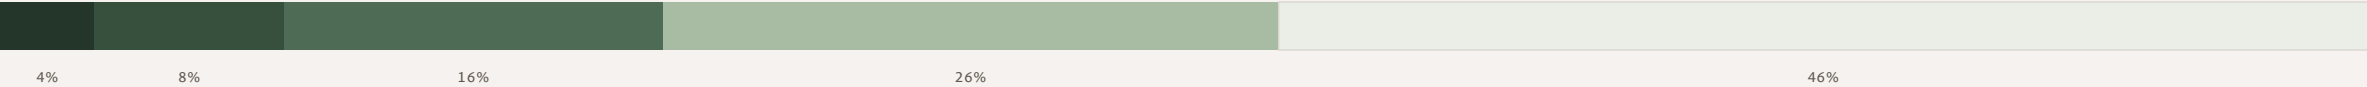

PANTONE references are the nearest Solid Coated equivalents and must be confirmed against a current physical guide. CMYK is specified for coated stock; proof before production. In practice only the core normally runs as a spot ink.

TREESONGS — PALETTE IN APPLICATION

10

The five steps are not interchangeable. Each one has a job. Terracotta stays the signature and is reserved for the name bar and endorsement panel; Lime Wash carries the page; Deep Walnut takes the covers and footers. Used in this order the material reads as Treesongs before a single word is read.

THE PALETTE AT WORK

NAME BAR & ENDORSEMENT
Terracotta at full strength, white name, Lime Wash surround. Never tint or screen the bar.

COVER & FULL-BLEED
Deep Walnut ground, Lime Wash type, a single Terracotta rule as the accent.

EDITORIAL PAGE
Burnt Umber for headings on light grounds. Clay fills panels and photographic scrims.

DIGITAL & INTERFACE
Terracotta is the single action colour. Clay carries pills and inactive states.

RULES FOR APPLICATION

GROUND FIRST
Lime Wash or TCU paper carries roughly half of any piece. Reach for Deep Walnut only when the format asks for drama.

ONE ACCENT
Terracotta appears once or twice per spread. If it starts to look like a brand colour scheme, remove some.

CLAY IS A GROUND, NOT A TEXT COLOUR
At 1.86:1 against paper it will not hold body copy. Use it behind type, never as type.

NEVER
No Riversprings green or Whisperlake grey on Treesongs material. No gradients between steps.

RIVERSPRINGS — PALETTE IN APPLICATION

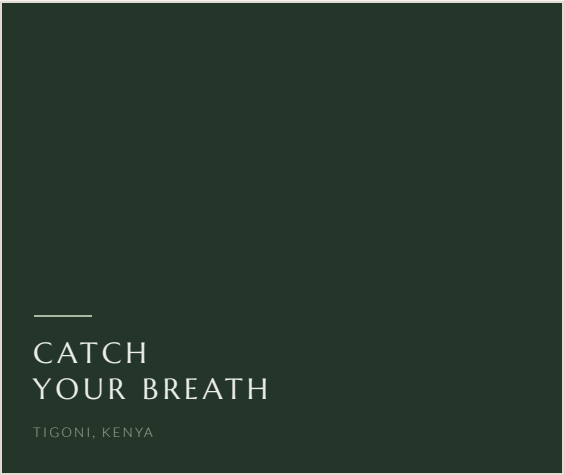

11

Riversprings has to hold two things at once — restoration and energy. The palette does that by keeping the light end wide and open for the calm material, and letting River Green carry the moments of movement. Spring Light is the default ground for everything except covers.

THE PALETTE AT WORK

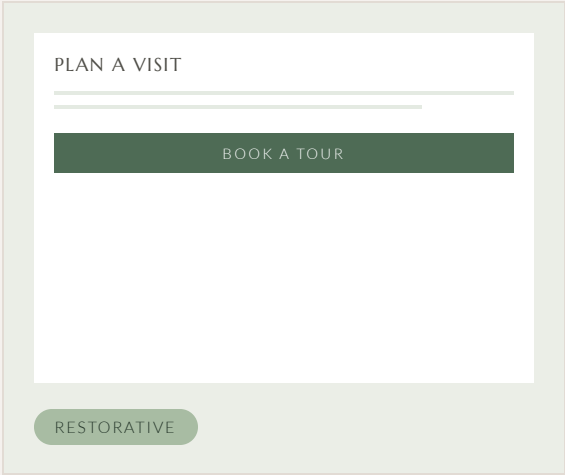

NAME BAR & ENDORSEMENT
River Green at full strength. The script name artwork sits reversed and unaltered.

COVER & FULL-BLEED
Deep Forest ground. Meadow, not the core, supplies the rule so it reads on dark.

EDITORIAL PAGE
Fern Shadow heads the section; Meadow fills panels and sits under photography.

DIGITAL & INTERFACE
River Green clears AA on white at 5.90:1, so it can carry links and buttons as well as fields.

RULES FOR APPLICATION & THE REFERENCE PALETTE

LET THE TWO ENDS BREATHE

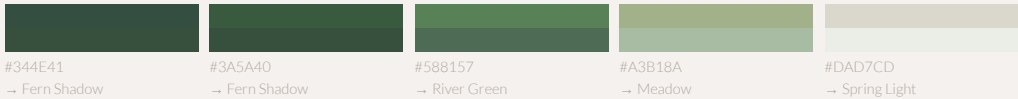

Spring Light and Deep Forest do the heavy lifting. River Green is punctuation between them, not a wash.

MEADOW IS A GROUND

At 1.80:1 on paper it cannot hold text. It fills, tints and scrims — Fern Shadow takes over for type.

AGAINST THE PALETTE SUPPLIED BY THE DESIGNER

The reference swatches sent through sit very close to this system at the dark end and run warmer and lighter at the open end. Shown below: supplied above, nearest approved step below.

WHISPERLAKE — PALETTE IN APPLICATION

12

Whisperlake is the quietest of the three and its palette is deliberately narrow. Almost everything happens between Dawn and Vapour, with Deep Slate reserved for type and covers. Mist is a field colour only — it is too light to carry text and must never be asked to.

THE PALETTE AT WORK

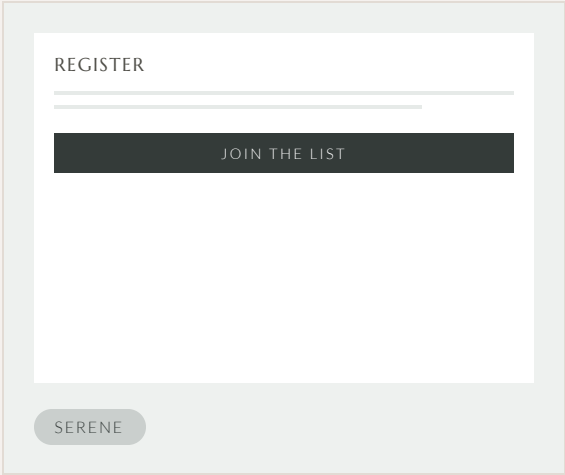

NAME BAR & ENDORSEMENT
Mist bar with the name in Deep Slate — white on Mist reaches only 2.23:1 and is not permitted.

COVER & FULL-BLEED
Deep Slate ground with Dawn type. This is where Mist finally works — as a rule on dark.

EDITORIAL PAGE
Still Water is the working heading colour. It clears large-text contrast at 4.09:1 on paper.

DIGITAL & INTERFACE
Deep Slate — not the core — takes buttons and links, because Mist cannot meet contrast.

RULES FOR APPLICATION

MIST IS A FIELD, NEVER TYPE
The core reaches 1.98:1 on paper. It fills bars, panels and rules. Deep Slate carries every word.

KEEP THE RANGE NARROW
Dawn to Vapour is the working range. The jump to Deep Slate should feel like an event, not a habit.

PROTECT THE WHITE SPACE
Whisperlake pages carry less ink than the other two. Resist filling the ground.

NEVER
No warm greys, no Treesongs clay, no emboldening of the lowercase name artwork.

CONTRAST

LEGAL PAIRINGS ACROSS THE FAMILY

Widening each offspring from one colour to five makes it easy to build combinations that fail on screen. Every step has been measured against the two grounds it will actually sit on. Use this table before setting type in a palette colour — the ratios are WCAG 2.2, and AA is the standard for all digital work.

TREESONGS

STEP AS TEXT	ON TCU PAPER	ON LIME WASH	WHITE ON IT
DEEP WALNUT	12.03 AA	11.09 AA	13.51 AA
BURNT UMBER	6.58 AA	6.07 AA	7.39 AA
TERRACOTTA CORE	4.15 LARGE ONLY	3.83 LARGE ONLY	4.67 AA
CLAY	1.86 GROUND ONLY	1.72 GROUND ONLY	2.09 GROUND ONLY
LIME WASH	1.08 GROUND ONLY	1.00 GROUND ONLY	1.22 GROUND ONLY

Terracotta sets headlines at 24 pt and above, or 19 pt bold. For body copy use Burnt UMBER.

RIVERSPRINGS

STEP AS TEXT	ON TCU PAPER	ON SPRING LIGHT	WHITE ON IT
DEEP FOREST	11.57 AA	11.08 AA	12.99 AA
FERN SHADOW	7.87 AA	7.54 AA	8.83 AA
RIVER GREEN CORE	5.26 AA	5.04 AA	5.90 AA
MEADOW	1.80 GROUND ONLY	1.72 GROUND ONLY	2.02 GROUND ONLY
SPRING LIGHT	1.04 GROUND ONLY	1.00 GROUND ONLY	1.17 GROUND ONLY

The only core of the three that clears AA at body size. River Green may set text, links and buttons without qualification.

WHISPERLAKE

STEP AS TEXT	ON TCU PAPER	ON DAWN	WHITE ON IT
DEEP SLATE	10.21 AA	10.09 AA	11.47 AA
STILL WATER	4.09 LARGE ONLY	4.03 LARGE ONLY	4.59 AA
MIST CORE	1.98 GROUND ONLY	1.96 GROUND ONLY	2.23 GROUND ONLY
VAPOUR	1.40 GROUND ONLY	1.39 GROUND ONLY	1.58 GROUND ONLY
DAWN	1.01 GROUND ONLY	1.00 GROUND ONLY	1.14 GROUND ONLY

Whisperlake is the exception: its core cannot set type at any size. Deep Slate carries text, Mist carries fields. Plan layouts accordingly.

Dawn on Deep Slate
10.09 · AA

AA — ratio 4.5:1 or better. Cleared for body copy, captions, labels and interface text at any size.

Large only — ratio between 3:1 and 4.5:1. Permitted at 24 pt regular or 19 pt bold and above. Never for body copy.

Ground only — below 3:1. These steps exist to fill, tint and scrim. They must never carry text of any size.

Ratios calculated to WCAG 2.2 against TCU paper #F5F1EE and each offspring's own paper step. Print applications should also be proofed on the specified stock.
